

Assignment #02 – PS657

Spring 2025-26

Max Marks: 10

Date: 13-03-2026

The Government of India, through CERT-IN has developed a cybersecurity framework to be followed by all Government Organisations and Departments. This is required to be followed by all higher educational institutions in general and therefore it needs to be followed by IIT Bombay as well. This framework is called Guidelines on Information Security Practices for Government Entities, and is available for download at <https://www.cert-in.org.in/s2cMainServlet?pageid=GUIDLNVIEW02&refcode=CISG-2023-01>

Each group is required to go through this, discuss and develop a presentation covering the following three points

1. How does this compare with the ISO27001 framework?
2. What are the resources in terms of number of people, skill experience and financial budget that are needed if these guidelines are to be followed for IIT Bombay?
3. Do you think these resources are being made available?

The groups are expected to produce a presentation with three parts, each part containing 2-3 slides. This presentation should be presented in class on Saturday 21st March 2026. Each group will have 20 minutes for presentation followed by 10 minutes for questions.
